

Insurance Coverage Confirmation

As a full-service logistics provider and freight forwarder, BGI Worldwide Logistics, Inc. provides optional cargo insurance coverage for our clients. Our concern is to make sure cargo we handle is insured or that our clients have made an informed business decision to not insure.

Apart from the obvious risk of destruction of merchandise being shipped, your company should be aware of the following with regards to non-insured cargo:

*** Carriers (Ocean or Air) have no liability for:

- > Acts of God, such as: heavy weather, earthquake, lightning, fire, etc.
- > Acts of War, strikes, riots, civil commotions, or unrest.
- > Criminal acts or negligence by master or crew
- > Latent defect in hull or machinery, including unseaworthiness of vessel or container.

When the Carrier does have liability, it is generally limited as follows:

- > Ocean Carrier - \$500 per package (A container is/may be considered a package)
- > International Air Carrier - \$9.07 per pound or \$20 per kilogram

To assist BGI Worldwide Logistics, Inc. in determining your exact insurance needs, please either accept or decline insurance coverage options below.
